

DV-1394

Firewire, IEEE 1394A/B, Fiber Optic Transport

- Compatible with IEEE 1394 A/B protocol.
- Singlemode and Multimode versions available.
- Full duplex.
- Supports 100 and 200 M Baud data rates.
- Distance up to 1KM.
- Adapters for ST, FC and SC.
- Singlemode units available in one or two fiber solutions.
- Rack or standalone configuration.

The DV-1394 is designed for full duplex transmission of Firewire (IEEE 1394) signals over Singlemode or Multimode fiber optic cable. Perfect for today's professional and consumer applications. No special drivers or set up needed and it is transparent to Firewire peripherals. The unit is compliant with IEEE-1394A-2000 and IEEE-1394B specifications.

Applications include video production, video editing, ENG, computer networking and transport links for STL, studio to studio and studio to CATV head-end.
